NMQ Digital as Front End Developer
01/01/2021 - Actual
Porto, Portugal

- Design System
- Development Front-end UI components
- Create UI Components
- Code Review

CESAR as Front End Developer
01/11/2018 – 31/12/2020
Recife, Brazil

My design assignments were to ensure visual compliance of systems, develop UI components reusable, code the UI components following the best code standards, and accessibility. Sharing knowledge in small workshops or meeting with the team, creating web components and design systems, and working together with the UX team and the Developers team.

The main activities were:

- Design System
- Development Front-end UI components
- Create UI Components
- Code Review

Flow Up as UX / UI DESIGNER and Front-end
01/05/2016 – 30/10/2018
Recife, Brazil

I was responsible for generating good user experiences, helping the Marketing team with UX techniques to create more sales (SaaS), designing interfaces for new features, making code for site and system interfaces. In addition to tracking implementation with the backend team until the end product meets user expectations. My position was “Hands-on.”

These are activity management, financial management, and time management projects. The main activities were:

- UX Search
- Front-end
- UX Test
- Wireframes
- UI
- Benchmarking
- SEO
- Test A/B

I am specialized in **UI Development** and **Design Systems**.

My fun time is to figure out how to make a complex animated component work most efficiently.

But also willing to get the work done in

**WELL-
WRITTEN
AND CLEAR
CODE**

● **Mekatronik** as UX / UI DESIGNER and Front-end
01/05/2016 – 01/03/2017
Recife, Brazil

The main activities were:

- UI Development
- Overall front-end fixiess and improvements

○ **SM Marketing & Design** and **Kenners** as Web Designer
01/01/2012–01/09/2013
Recife, Brazil

Responsible for the development and creation of interfaces. Taking the first steps and learning about digital products.

ON MY FREE TIME,

playing with my little
dog lady, learning more
about gadgets and
new technologies while
enjoying good nature
and a sustainable way
of living.
